

BOTTOMLY POTTS

Job

My job is to protect my owner from burglars and to keep cats away from the house as my owner is allergic to them. I also take care of my siblings.

Appearance

I am black and white, quite furry and very comforting to stroke. I'm soft and silky and my owner constantly brushes my fur to keep it nice and perfect. I'm probably about 1m tall and approximately 77 kilograms. I often like to wear my bright red champion collar. I won at the 'most obedient dog' competition.

Likes and dislikes

I love chewing on bacon-sprayed bones and munching on mushy dog food. I'm quite clever when I'm pinching chicken drumsticks from my owners plate on the kitchen table. I dislike my tail being touched, fur being stroked the wrong way and the little mouse that lives in my house because my owner always feeds it a little cheese treat and not me! Although I am greedy!

Family

I am devoted to my owner who cares for me so much. I have a younger sister called Fearn and an older brother named Darcy who I get along with very well and I love to play with.
